

# ***THE EARTH***

***(chorus)***

WE'RE GOING TO WALK AROUND IT  
ON THIS EARTH, ON THIS EARTH  
WE'RE GOING TO TALK ABOUT IT  
ON THIS EARTH, ON THIS EARTH  
WE'RE GOING TO BE ABOUT IT  
ON THIS EARTH, ON THIS EARTH  
WE'RE GOING TO LIVE AROUND IT

***(verse1)***

NOW THE EARTH SPINS ON ITS AXIS  
MAKING A FULL TURN IN TWENTY FOUR HOURS  
THE SPINNING OF THE EARTH ON ITS AXIS (RIGHT)  
MAKES THE SUN LOOK LIKE ITS MOVING THROUGH THE SKY  
THE EARTH'S AXIS IS ALSO TILTED  
CAUSES THE CHANGES OF THE SEASONS  
IN THE SUMMERTIME HEAT EFFECTS ME  
BECAUSE THE SUN FALLS MORE DIRECTLY  
IN THE WINTERTIME SNOW TO MY ANKLES  
LIGHT FROM THE SUN COMES AT GLANCING ANGLES  
THE TILT OF THE EARTH IN THE SUMMERTIME  
MAKES LONGER DAYS AND SHORTER NIGHTS  
THE TILT OF THE EARTH IN THE WINTERTIME  
MAKES SHORTER DAYS AND LONGER NIGHTS  
AND THAT'S HOW IT GOES DOWN  
IN WINTER THERES LESS LIGHT TO HEAT THE GROUND

***(chorus)***

WE'RE GOING TO WALK AROUND IT  
ON THIS EARTH, ON THIS EARTH  
WE'RE GOING TO TALK ABOUT IT  
ON THIS EARTH, ON THIS EARTH  
WE'RE GOING TO BE ABOUT IT  
ON THIS EARTH, ON THIS EARTH  
WE'RE GOING TO LIVE AROUND IT

**(verse2)**

NOW THE SHAPE OF THE EARTH IS NOT CIRCLE  
IS NOT FLAT IT IS SPHERICAL  
BUT I DON'T KNOW IF YOU KNOW  
THE SHAPE IS SLIGHTLY FLATTENED AT THE POLE  
GO AROUND THE EARTH AT THE EQUATOR  
YOU'LL MAKE IT BACK TWENTY FIVE THOUSAND MILES LATER  
WHAT THE EARTH IS COMPOSED OF  
SOLID, LIQUID, GAS, ITS ALL BY MASS  
IRON, OXYGEN, SILICON  
MAGNESIUM, NICKEL  
SULFUR, TITANIUM  
Su, Su, SULFUR, TITANIUM  
NOW IN THE ATMOSPHERE MOST PEOPLE THINK THE AIR IS MAINLY OXYGEN  
BUT ITS SEVENTY NINE PERCENT NITROGEN, TWENTY PERCENT OXYGEN  
AND ONE PERCENT CARBON DIOXIDE

**(chorus)**

WE'RE GOING TO WALK AROUND IT  
ON THIS EARTH, ON THIS EARTH  
WE'RE GOING TO TALK ABOUT IT  
ON THIS EARTH, ON THIS EARTH

**(verse3)**

THE EARTH HAS TWO MAJOR FORCE FIELDS  
GRAVITY AND MAGNETISM (MAGNETISM)  
GRAVITY IS THE FORCE AT A DISTANCE  
THAT ATTRACTS OBJECTS OF MASS TOWARDS IT  
NOW THE FORCE OF GRAVITY ON EARTH  
HOLDS DOWN OUR ATMOSPHERE, OCEANS AND EVERYTHING ELSE  
EARTH IS LIKE ONE GIANT MAGNET  
MAGNETIC POLE NEAR THE NORTH POLE, OPPOSITE NEAR THE SOUTH POLE  
THE MAGNETIC FIELD ATTRACT PARTICLE CHARGES  
FROM THE SUN THAT MIGHT HARM US  
THESE PARTICLES CAUSE THE AIR IN THE UPPER ATMOSPHERE TO GLOW  
NOTHERN LIGHTS, SOUTHERN LIGHTS

**(chorus)**

WE'RE GOING TO WALK AROUND IT  
ON THIS EARTH, ON THIS EARTH  
WE'RE GOING TO TALK ABOUT IT  
ON THIS EARTH, ON THIS EARTH  
WE'RE GOING TO BE ABOUT IT  
ON THIS EARTH, ON THIS EARTH  
WE'RE GOING TO LIVE AROUND IT
