

ADAPTIVE CHARACTERISTICS

(chorus)

LETS ANALYZE AND DESCRIBE SOME ADAPTIVE CHARACTERISTICS

UP IN THE ECOSYSTEM

LETS ANALYZE AND DESCRIBE SOME ADAPTIVE CHARACTERISTICS

UP IN THE ECOSYSTEM

(verse)

SOME ANIMALS HAVE WEBBED FEET JUST LIKE AN OTTER

THEY CAN SEARCH FOR FOOD IN THE WATER, IT MAKES THEM SWIM BETTER

SOME ANIMALS HAVE SHARP CLAWS LIKE SOME MEAT EATERS

AND THEY USE THOSE CLAWS FOR KILLING THEIR PREY

SOME USE THEM FOR DIGGING FOR FOOD OR SHELTER (HAY)

SOME ANIMALS HAVE LARGE BEAKS, IT HELPS SOME ANIMALS EAT

SOME ANIMALS HAVE LARGE TEETH, IT HELPS THE ANIMALS EAT

SOME ANIMALS HAVE LARGE BEAKS, IT HELPS SOME ANIMALS EAT

SOME ANIMALS HAVE LARGE TEETH, IT HELPS THE ANIMALS EAT

(chorus)

LETS ANALYZE AND DESCRIBE SOME ADAPTIVE CHARACTERISTICS

UP IN THE ECOSYSTEM

LETS ANALYZE AND DESCRIBE SOME ADAPTIVE CHARACTERISTICS

UP IN THE ECOSYSTEM
