

ECO ENERGY FLOW

(verse)

ENERGY STARTS FROM THE SUN TO THE PRODUCER A.K.A. THE PLANT
NOW GREEN PLANTS USE PHOTOSYNTHESIS TO MAKE THEIR FOOD
AND DURING THEIR LIFE MOST OF THE ENERGY THEY USE
A SMALL PERCENTAGE OF THEIR ENERGY IS USED FOR HEAT
A SMALLER PERCENTAGE GO TO THAT LITTLE ANIMAL THAT COES THROUGH AND EAT IT
NOW THAT LITTLE ANIMAL THAT ATE THE PLANT
HE GIVES OFF EVEN LESS ENERGY FOR HEAT
AND THAT BIG ANIMAL THAT EATS THE LITTLE ANIMAL
HE GETS A MUCH SMALLER PERCENT OF ENERGY
THE MORAL OF THE ENERGY FLOW IS
TO GET THE ENERGY YOU NEED
ANIMALS AT THE TOP OF THE FOOD CHAIN
NEED MORE FOOD TO MEET THEIR NEEDS

(chorus)

ENERGY FLOW- WATCH ME SPIT IT
ENERGY FLOW- IN THE ECOSYSTEM
ENERGY FLOW- FOR SURE I DID IT
ENERGY FLOW- IN THE ECOSYSTEM
ENERGY FLOW- COME GET WITH IT
ENERGY FLOW- IN THE ECOSYSTEM
ENERGY FLOW- COME GET WITH IT
ENERGY FLOW- IN THE ECOSYSTEM
