

ENVIRONMENTAL CHANGE

(chorus)

ORGANISMS THEY SURVIVE IN DIFFERENT ENVIRONMENTS
THAT MEET THEIR NEEDS IN CONDITIONS THATS UNIQUE
ORGANISMS THEY SURVIVE IN DIFFERENT ENVIRONMENTS
THAT MEET THEIR NEEDS IN CONDITIONS THATS UNIQUE

(verse)

ORGANISMS THEY ADAPT TO THE AREA THEY LIVE IN
THEY ADAPT TO THE TEMPERATURE, RAINFALL AND ALL CONDITIONS
ORGANISMS IF YOU CHANGE THE ENVIRONMENT THAT THEY LIVE IN
A FEW MIGHT ADAPT WHILE SOME OTHERS LOOK INTO MIGRATION
ORGANISMS IF YOU CHANGE THE ENVIRONMENT THAT THEY LIVE IN
IT CAN RESULT IN DEATH OF A LOT OF ORGANISMS
ORGANSIMS IF THEY LIVE IN THE HOT SUN AND YOU PUT THEM IN THE DARK COLD
THEY MIGHT NO LIVE OR THEY MIGHT NOT GROW IF YOU CHANGE THE ENVIRONMENT

(chorus)

ORGANISMS THEY SURVIVE IN DIFFERENT ENVIRONMENTS
THAT MEET THEIR NEEDS IN CONDITIONS THATS UNIQUE
ORGANISMS THEY SURVIVE IN DIFFERENT ENVIRONMENTS
THAT MEET THEIR NEEDS IN CONDITIONS THATS UNIQUE
