

GRAVITY

EARTH IS ONE OF NINE PLANETS THAT GO AROUND THE SUN
ASTEROIDS, COMETS, DUST PARTICLES GO AROUND THE SUN

WHY?

GRAVITY, GRAVITY
BECAUSE GRAVITY, GRAVITY
BECAUSE GRAVITY, GRAVITY
BECAUSE GRAVITY, GRAVITY

NOW EVERYTHING IS MADE UP OF MATTER
THE AMOUNT OF MATTER AN OBJECT HAS
THE AMOUNT OF MATTER, THE AMOUNT OF MATTER
IS CALLED MASS

NOW SOME OBJECTS HAVE GREAT MASS
AND SOME OBJECTS HAVE LITTLE
IN SPACE OBJECTS WITH GREAT MASS
PULL OTHER OBJECTS TO THEM
THAT PULL IS A FORCE CALLED GRAVITY
GRAVITY, GRAVITY
GRAVITY, GRAVITY
GRAVITY, GRAVITY

WITHOUT GRAVITY EVERYTHING ON EARTH
WILL GO FLOATING IN THE AIR
GRAVITY PULLING US TOWARDS EARTH'S CENTER
KEEPS US HERE
SO WHEN YOU JUMP UP, YOU GO BACK DOWN
THROW A BALL UP IT COMES BACK TO THE GROUND
THAT'S GRAVITY, GRAVITY
GRAVITY, GRAVITY
THAT'S GRAVITY, GRAVITY
GRAVITY, GRAVITY

NOW THE SUN IS A MILLION TIMES LARGER THAN EARTH
ITS MASS IS FAR GREATER THAN EARTH'S
ITS PULLING ON PLANETS, PULLING ON PLANETS
THE SUNS GRAVITY IS PULLING ON PLANETS
NOW THEM PLANETS KEEP CIRCLING, KEEP CIRCLING
THE SUN
IN AN ORBIT, IN AN ORBIT
THEIR CIRCLING IS CALL AN ORBIT
BECAUSE OF GRAVITY, GRAVITY
GRAVITY, GRAVITY
GRAVITY, GRAVITY
BECAUSE OF GRAVITY, GRAVITY
