

# HABITATS

(chorus)

HABITATS ARE PLACES WITH POPULATIONS

HABITATS ARE WHERE PLANTS OR ANIMALS LIVE

HABITATS ARE PLACES WITH POPULATIONS

HABITATS ARE WHERE PLANTS OR ANIMALS LIVE

(verse)

IN A HABITAT YOU WILL FIND A GROUP OF ORGANISMS THE SAME KIND

LIVING TOGETHER AT THE SAME TIME, LIVING TOGETHER

NOW THE HABITAT SUPPLIES FOOD, WATER, TEMPERATURE JUST RIGHT

MINERALS THAT'S RIGHT, WHAT ORGANISMS NEED TO SURVIVE

ANTS HAVE THEIR OWN HABITAT (ANT FARMS)

BEEES HAVE THEIR OWN HABITAT (BEE HIVES)

FISH HAVE THEIR OWN HABITATS (WATER)

TOUCANS HAVE A HABITAT (THE RAIN FOREST)

(chorus)

HABITATS ARE PLACES WITH POPULATIONS

HABITATS ARE WHERE PLANTS OR ANIMALS LIVE

HABITATS ARE PLACES WITH POPULATIONS

HABITATS ARE WHERE PLANTS OR ANIMALS LIVE
